

Dr. Anne Snowden BScN, MSc, PhD, FAAN

Professor, Strategy and Entrepreneurship
Academic Chair, World Health Innovation Network (WIN)
Odette School of Business

Dr. Anne Snowden is a Professor of Strategy and Entrepreneurship and Chair of the World Health Innovation Network (WIN), at the University of Windsor, Odette School of Business. Dr. Snowden leads the work of the first Canadian health innovation centre with formal ties to the U.S., building collaborative partnerships between the two countries to advance the health of populations and accelerate health system innovation in both countries to achieve sustainability, economic value, and productivity by providing support for innovators and entrepreneurs to successfully bring their discoveries to the Canadian, U.S., and world markets.

Currently, Dr. Snowden is leading over 15 innovation research initiatives across seven Canadian provinces that collaborate with the government, health professionals, private industry, foundations, and families. She is a member of the Ontario Health Innovation Council and former Chair of the Institute for Health Research (CIHR). She has also been appointed to the President's Advisory Committee on Digital Health Innovation at CIHR, is Vice Chair of the Board of the Directors for Alberta Innovates, and is an Expert Advisor to the Canadian Space Agency focused on Space, Health and Innovation: Emerging challenges, new opportunities and benefits to society.

She is also an Associate Professor to the adjunct academic staff of the School of Rehabilitation Therapy at Queen's University, Adjunct Faculty at the Department of Computer Science at the University of Windsor, and Adjunct Faculty at the School of Nursing at Dalhousie University.

Dr. Snowden has published more than 140 research articles, papers and cases, has received over \$22 million in research funding, holds patents, and has commercialized a highly successful booster seat product for children traveling in vehicles. She holds a PhD in Nursing from the University of Michigan. She is a Fulbright Scholar, and received the CIHR Partnership Award for her partnership with the automotive industry focused on injury prevention for children.
