

Prof. Ian O'Hara

Queensland Biofutures Industry Envoy, Queensland Government

Professor Ian O'Hara is a Principal Research Fellow specialising in bioenergy, biofuels and biorefining at Queensland University of Technology. Ian's research interests include biofuels and bioenergy, biorefining and bioproducts, process engineering, scale-up and techno-economic assessment of new technologies. In 2016, Ian was appointed by the Queensland Government as the Queensland Biofutures Industry Envoy. As the Envoy, Ian provides strategic advice to government and assists in securing domestic and international investment within the Biofutures sector. Ian is a Director of Bioenergy Australia.
