

Dr Michael May

President and CEO, CCRM

Michael May is President & CEO of CCRM a Canadian not-for-profit funded by the Government of Canada, the Province of Ontario, and leading academic and industry partners. CCRM supports the development of regenerative medicines and associated enabling technologies, with a specific focus on cell and gene therapy. CCRM aims to accelerate the translation of scientific discovery into new companies and marketable products for patients.

Prior to CCRM, Michael was the President, and co-founder, of Rimon Therapeutics Ltd., a Toronto-based tissue engineering company developing novel medical polymers that possess drug-like activity.

Michael sits on several academic, industry and corporate boards and advisory committees.

Michael completed his PhD in Chemical Engineering at the University of Toronto in 1998 as an NSERC Scholar and was awarded the Martin Walmsley Fellowship for Technological Entrepreneurship.
